

# VaporLock Clear

## Fundamentals Guide

### CLEAR ODOR & SMOKE BLOCKER

A clear, non-gloss odor sealant that preserves the original look of surfaces when burn marks, staining or charring are not present. It also seals in tough, deeply embedded animal and cooking odors.

• Uncompromised Odor Sealing	• No Fumes
• Impermeable	• Non Flammable
• Flexible	• Water-based
• Saves on Reconstruction	• Recommended by Professionals
• Zero Shine	

### THE PROBLEMS

**VaporLock was designed to seal surfaces.**

Odor from fire, smoking, animal infestation, cooking, biological decomposition, fuel, and other sources are easily trapped into semi-porous surfaces like paint, wood, concrete and other materials. As the odor escapes, it's not only a nuisance to another living or working in the environment but it can be a deterrent to sale

### THE SOLUTIONS

**Seals Odor Permanently**

VaporLock's superior micro emulsion system, permanently seals in relentless odors. This impermeable vinyl polymer technology is a direct replacement for shellac, oil and solvent based systems without the downsides.

#### **Impermeable**

While VaporLock's water-based competitors use acrylic resins to try to control odor release, we understand that's a losing proposition. Whether odors are from fire, cooking, smoke, animal infestation, or just about any other source, VaporLock simply works.

#### **Flexible**

Oil and solvent based products have another issue, they become brittle and form hairline cracks once dry. VaporLock is built with plasticizers that permit expansion and contraction of the sealer due to changes in temperatures and surfaces over time.

# **VaporLock Clear**

## Fundamentals Guide

### **Saves on Reconstruction**

For surfaces that are unharmed but only require odor sealing, VaporLock Clear is the perfect tool for the job. This saves labor hours and material cost, and gets owners back into their properties more quickly.

### **Water-based**

VaporLock is water-based, making cleanup easy. A little soap and water is all you need to clean surfaces or equipment after use.

### **Zero Shine**

Preserving the original look of protected surfaces is important. VaporLock Clear imparts a flat, clear finish so that it looks like there was never a problem. In real estate transactions, that can make or break a sale.

### **No Fumes**

VaporLock's fume-free formula makes working with it a pleasure. It also prevents customer complaints and call-backs.

### **Non-Flammable**

Unlike its oil and solvent based competitors, VaporLock is non-flammable which makes a lot of sense since odor sealers are commonly used after fires.

### **Recommended by Professionals**

Unlike every other water-based odor sealer on the market, VaporLock actually works and is proven and recommended by hundreds of contractors throughout North America.
